

Production Resourcing

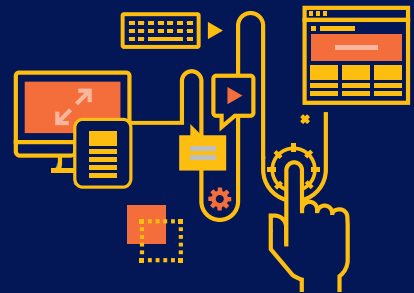

Deanta offers a fully-fledged production resourcing solution to cater to the unique requirements of all publishers. Consider a tailored package or premium production resourcing solution.

Tailor Your Package

Deanta recognises that publishers have their own unique set of requirements and processes. With this in mind, we offer a tailored package solution, through which clients can select the core components of the service they require, to be packaged into a bespoke solution. All packages include complete use of Deanta's technology platform, Lanstad, and a dedicated Project Manager.

COMPONENTS

- Artwork
- Editing
- Layout
- Indexing
- Proofreading

- Author Liaison

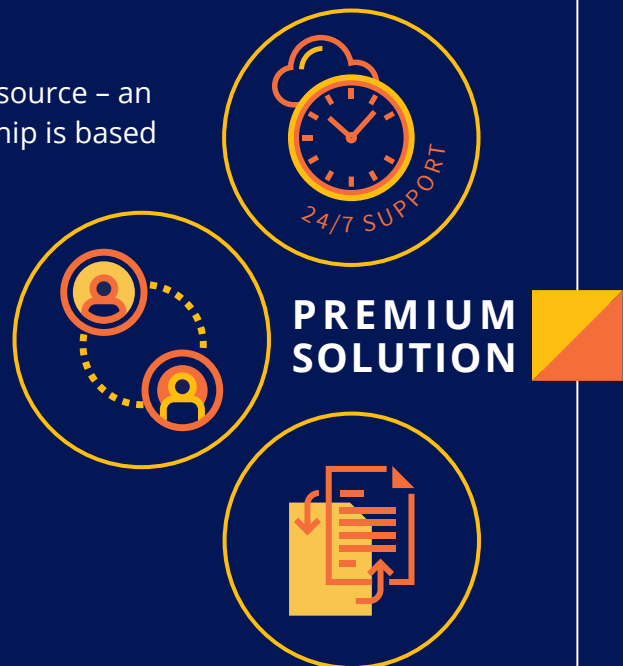

Complete the form on our website www.deantaglobal.com to receive a quote within 24 hours

Premium Solution

Deanta's Premium Solution offers a dedicated production resource – an extension of your publishing production team. The relationship is based on a yearly contract with an agreed flat-rate monthly charge.

This solution includes:

- A dedicated Senior Account Manager
- Dedicated production team
- 24/7 support
- Complete access to **Lanstad** technology platform. *Featuring Project Management Portal, XML Content Editing Suite, Content Transformation Engine, and Digital Asset Management facility. Yearly contract based on specified volume of publications*
- Monthly billing based on a flat-rate fee

Technology Solutions
